**Owners and Operators of heritage locomotives  
Class 04 D2246, Class 37 D6737 and Class 50 D402**

## Working Party Report – Dec 16

There were only 2 working parties in December and with work finished for the year on D2246 and D6737 the efforts were again focused on D402 with further bodywork tasks undertaken. With the scaffold tower located at the No1 end, work progressed on the cab roof and gutter areas as these were cleaned, rust

treated and primed. The cab roof and gutters were then painted in grey primer matching the rest of the body sides. Further body work repairs were progressed with the locomotive now resplendent in an over coat of grey primer, this is how it will remain until the warmer weather arrives in the New Year.
